

FOR IMMEDIATE RELEASE

For the Second Year Flinn Scientific's PAVO Wins Tech & Learning's "Award of Excellence"

The annual award recognizes edtech solutions that excel at helping to aid educators, students and teachers.

BATAVIA, IL (February 14, 2023)

[Flinn Scientific](#) announces that PAVO, its digital gateway to comprehensive standards-aligned science content was recognized as a winner in this year's Tech & Learning Awards of Excellence: Best of 2022 in Secondary Education category, repeating its honor from 2021. The Tech & Learning Awards recognize the best products in the education technology industry, highlighting those that help aid education professionals, students and/or teachers.

[PAVO](#) was judged based on its more than 10,000 innovative units of dynamic and engaging content, customizable lessons for easy differentiation, augmented and virtual reality simulations, streamlined management and embedded assessments. Building from a strong foundation, PAVO brings together Flinn's digital and hands-on solutions in the areas of chemistry, biology, physics and physical science, and earth/environmental science. PAVO meets the needs of science teachers with an integrated dashboard that offers real-time, progress-monitoring thus enabling data-informed instruction, and more.

“We are honored that PAVO has been recognized by Tech & Learning for the second year in a row,” says Michael Lavelle, Flinn Scientific’s president and CEO. “With PAVO, we are providing teachers with customizable content that allows them to bring more hands-on science into the classroom helping students make connections that improve learning.”

[Tech & Learning](#) has recognized the best in educational technology through its annual awards for more than 30 years. According to the awards’ editorial team, “each year, the Awards of Excellence grow to include a more diverse range of products and companies. With this being the case, judging and finding our winners becomes a tougher decision with each award. All of our judging is performed by industry experts, meaning those who have won the award should be truly proud of their achievement. Well done from all of Tech & Learning.”

About PAVO

PAVO is Flinn Scientific’s award-winning gateway to a constellation of digital and hands-on science content that streamlines instruction, engages students, and enriches the teaching and learning process. Developed by Flinn’s scientists and science educators, PAVO enables hands-on learning through more than 10,000 customizable lessons, labs, and assessments across the science disciplines of chemistry, biology, environmental science, physics, physical science, life science, earth and space science and STEM.
