

Footwear Evidence Worksheet

Observations

Name	Length (cm)	Width (cm)	Distinguishing Characteristics

Post-Lab Questions

1. Record the length and width of the footwear print in the *Observations Table*.
2. Record any distinguishing characteristics from the shoe impression such as unique tread patterns, brand names, etc.
3. Sometimes more than one suspect is possible based on the footwear analysis from a crime scene. What other tests could be done to determine the guilty party?
