Build a Simple Motor Worksheet

Post-Lab Questions

1. Consider the first homopolar motor you created.
   a. What difficulties, if any, did you encounter in getting the wire to spin?

   b. What changes did you make to overcome any difficulties?

2. Draw your creative design in the space below.

3. Would the homopolar motor work if a nonmetallic ceramic magnet were used instead of the neodymium magnet?
