Cohesion Plates Worksheet

1.	Do	the	plates	naturally	stick	together?
----	----	-----	--------	-----------	-------	-----------

2. When the liquid is added to the plastic plates and the plates are pressed together, what happens?

3. What happens when the soapy liquid is used? Are the plates "glued" together?

4. Explain the demonstration in terms of cohesive forces, adhesive forces, and air pressure.
