

## Environmental Pollution and Lichens Worksheet

## Data Table

Metal Cation	Intensity of Blue-colored Solution
Water	
Na	
K	
Cu	
Со	
Fe	

## **Post-Lab Questions**

- 1. What is a lichen?
- 2. Which solution indicated the least amount of methylene blue exchange?
- 3. Which solution indicated the greatest amount of methlyene blue exchange?
- 4. Given the results, which metal cation would have the greatest effect on lichens?
- 5. What possible things could be done to stop lichen deterioration in your area?
