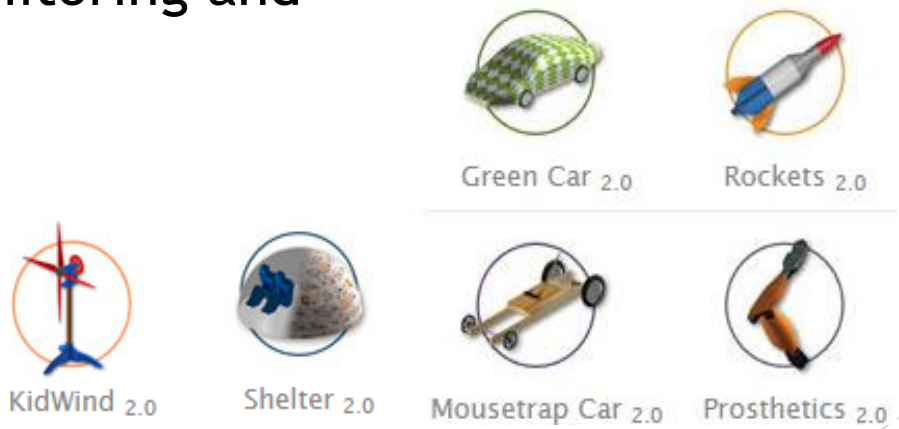
FLINN

WHITEBOX LEARNING

A Flinn Scientific Company

- Standards-based STEM/Engineering learning system for grades 6-12
- Cloud-based, fully-integrated virtual modeling
  - Students build and test their own designs virtually and compete with other students' designs in simulation
- Allows for teacher monitoring and measuring

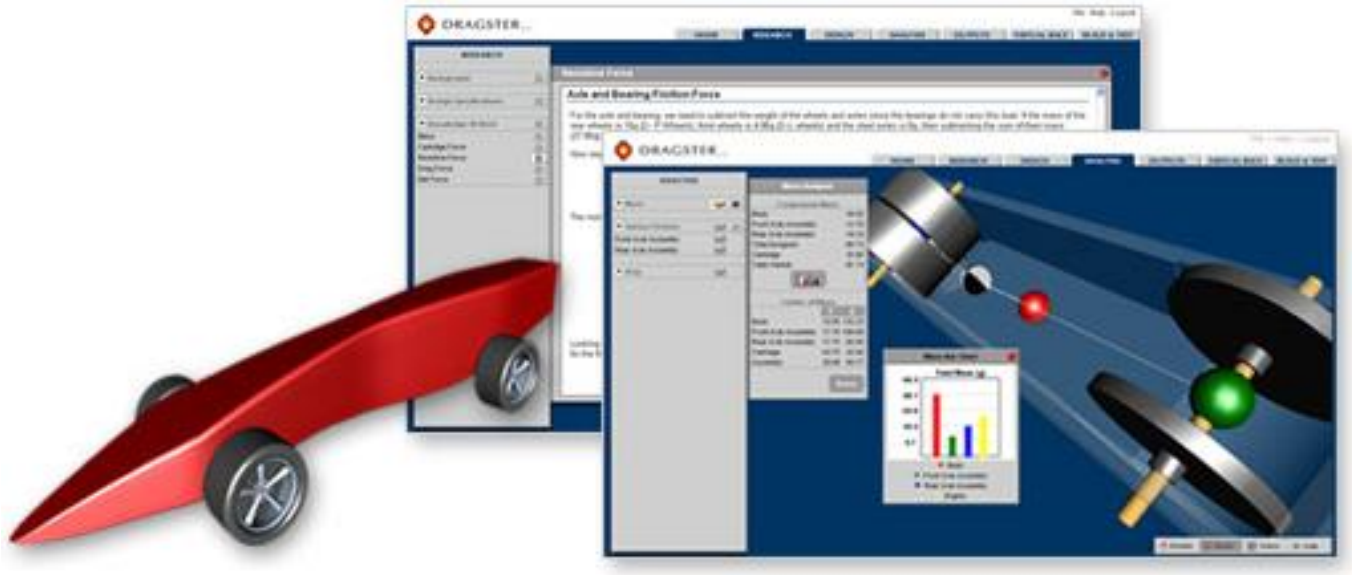


FLINN

WHITEBOX LEARNING

A Flinn Scientific Company

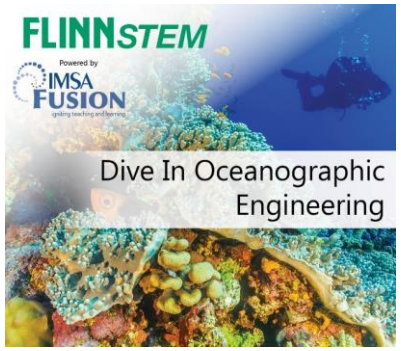
- Ten units guide students through an engaging, realistic virtual development process.
- Each unit can be extended by building actual models of students' optimized designs.



FLINN

12 Research-Based Modules Available

- Developed by curriculum specialists at the Illinois Math and Science Academy (IMSA)
- Each module contains all materials required for 32 hours of instructions.



- Digital content includes comprehensive Professional Development for instructors.
- Perfect for after school and enrichment STEM programs.
