

Reusable Masks

Protective facial coverings are a must, we have your students covered with the latest addition to every student's uniform. Make sure half face style masks are worn covering the nose, gently press the metal strip to shape against the nose for a tighter fit.

- Cloth face coverings are meant to protect other people in case the wearer is unknowingly infected but does not have symptoms. Cloth face coverings are not surgical masks, respirators, or other medical personal protective equipment.

CDC RECOMMENDS: WASHING CLOTH FACE MASKS

Washing Machine

- You can include your face covering with your regular laundry
- Use regular laundry detergent and the warmest appropriate water setting for the cloth used to make the face covering.

Washing by Hand

- Prepare a bleach solution by mixing:
 - 5 tablespoons (1/3rd cup) household bleach per gallon of room temperature water or
 - 4 teaspoons household bleach per quart of room temperature water
- Check the label to see if your bleach is intended for disinfection. Some bleach products, such as those designed for safe use on colored clothing, may not be suitable for disinfection. Ensure the bleach product is not past its expiration date. Never mix household bleach with ammonia or any other cleanser.
- Soak the face covering in the bleach solution for 5 minutes.
- Rinse thoroughly with cool or room temperature water.

Make sure to completely dry cloth face covering after washing.

CDC Considerations for Schools
